Additional Skills: Object-Oriented Programming, Algorithms, Data Structures

Ongoing: AWS, C#, Next.js, Nuxt.js, GraphQL

EXPERIENCE

Software Engineer

Qvestment Enterprise

Jun 2021 - Present

- Created and coordinated a CRM system project for the onboarding, managing, and contacting of clients using automation and systems such as Zapier, Pipedrive, Google Forms, etc.
- Constructed and organized the use of spreadsheets and directories to maintain client information.
- Developed email templates for marketing and contact with large companies.

Software Engineer

Chegg/Thinkful

Aug 2022 - Jan 2023

- Developed software with industry best practices and standards in a full-time, five-month contract.
- Completed several projects both front-end and back-end using multiple languages and frameworks.
- Tested software and constructed unit tests for application quality assurance, operation, and debugging.

SOFTWARE PROJECTS

Task Tracker

- Implemented a Task Tracking CRUD app using the MEAN stack for front-end and back-end development.
- Used MongoDB as the database storing task information as JSON objects while using mongoose to connect the both ends.
- **Technologies:** Angular.js, MongoDB, Mongoose, Express, Node.js, JavaScript, CSS, HTML, TypeScript

Restaurant Reservation App

- Assembled a full-stack application using the PERN stack technologies for restaurants.
- Created a fully functional responsive website for the management and creation of tables and table reservations.
- **Technologies:** React.js, Bootstrap, Express, Node.js, PostgreSQL, JavaScript, HTML, Knex

Vue Map App

- Produced a Map App with Vue.js using the Leaflet API and methods for utilizing OpenStreetMap.
- Incorporated an interactive map to search a location providing a list of search results and marker placement.
- **Technologies:** Vue.js, Leaflet, Node.js, JavaScript, SASS, CSS, HTML, TypeScript

Flashcard-o-Matic

- Coded a MERN stack application styled using Bootstrap with a back-end server and database using Mongo and Express.
- Fully responsive CRUD app for studying decks of flashcards developed using a one to many embedded relationship database with MongoDB.
- **Technologies:** React.js, Bootstrap, JavaScript, HTML, Express, Node.js, MongoDB

EDUCATION

Jacksonville, FL

University of North Florida

Aug 2019 - May 2023

- **Major:** Psychology, B.A.
- **Certificate (Minor):** Marketing
- **Activities and Societies:** Competitive Climbing Club

freeCodeCamp, SoloLearn, Mimo, Codecademy

Programming Coursework:

- Responsive Web Design Certification, Bootstrap, jQuery, SASS, React.js, JavaScript, ES6, Object Oriented Programming (OOP), Functional Programming
- Python, Web Development, HTML, CSS, JavaScript, React.js, Redux
- Web Development Certification, SQL
- PHP Certification
